## WYOMING PRESSES ITS POLITICAL CLAIM

Senator Warren's Special Trip to Work For Van Orsdale.

CANDIDATE IS STRONG POLITICIAN AND LAWYER

Chances Seem to Be in His Favor --Third Judgeship Still Being Studied by Department of Justice.

Washington, D. C., Nov. 11. (Special) --The Wyoming delegation in Congress will endeavor to hold the appointment of a successor to the late John C. Baird, as United States Attorney for Hawaii, for its State.

The delegation is united upon Hon. J. A. Van Orsdale, Attorney General of Wyoming, and chairman of the Republican Central Committee of Wyoming. Senator Warren reached here today and saw the President in behalf of Mr. Van Orsdale. It is reasonably certain the appointment will be made. Mr. Van Orsdale has been practicing law in Wyoming for the past fifteen years. He has been a member of the State Legislature, Prosecuting Attorney of Laramie county, Wyoming, Attorney General of the State six years, and chairman of the Republican Committee four years. He is an able lawyer and a skillful politician.

The death of Col. Baird is regretted exceedingly by the Department of Justice, where he was regarded a capable and energetic official.

The Attorney General still has under consideration the question of the appointment of an additional judge for Hawaii.

## NEW SCHOOL PAPER.

Pupils of Kaahumanu school, Bereania street, were yesterday evening selling a little paper called Maile Illima, which has just been started with its printing done at the school. In both contents and style of printing the little sheet is very creditable to a common school, comparing favorably with the prints issued by high schools and even academies here and elsewhere.

Officers of the Maile Illima are announced as follows: James Blaisdell, manager; Mrs. E. D. Heany, secretary; Lucy McGuire and Arthur Faria, reporters; Harry Wagoner, Lani Magoon and Callie Lucas, collectors; Mary Aylett, editor; Catherine Silva and Henry Aylett, assistant editors.

The name of the paper is thus explained: The colors of the Kaahumanu school are red, like the "crimson-dyed" Maile, and green, like the sweet perfumed Maile. It was the idea of the pupils in the sixth, seventh, and eighth grades to combine the names of these two Hawaiian flowers to make a name for the school paper.

Several other names were proposed, among them "The Kaahumanu Press," "Globe," "World," "Inter-Ocean" and "Advertiser," but when the matter was put to a vote, the school stood solid for Maile Illima.

## SPORTING MAN IN WRONG SHOP

But Finds He Did Not Make a Mistake After All.

REFRESHED BY PREDICTIONS OF COMING GRAND FEAST

Spirit of Catholicity Being Exercised by Ladies of Other Denominations in Aiding Catholic Convent School.

Hearing the rumor that there was to be an interesting social gathering of ladies up town yesterday afternoon and the Bulletin Society Reporter being absent at a "high tea" on College Hills, the Sporting Editor was induced to represent this paper at the meeting by pointing that the intention was to start a "ladies' football team." This was given him as a reason for not knowing the locality of the meeting--saying that they probably would not want newspaper men around at their first gathering if they could help it. Then he was flattered upon his keenness in getting in on "sporting events" and told to track the first levy of happy looking ladies he saw and he would be sure to "hit it" all right, and football, trotting match, sparring, sewing bee or whatever else the event might prove to be, to " scoop it" and get ahead of the other newspaper men.

In his report he says he followed up a bright, laughing group of ladies and after hanging around Hollister's while they went into Imbibe soda, and then watching them admire some new hats in a store window, they finally made a break for the "drill shed" only shying once at a passing Rapid Transit car.

He followed them into the shed, positive now that there was some "sporting event" in the air, and he found himself in the presence of a brilliant assemblage of ladies in lovely hats and handsomely gowned.

The meeting was already in progress, so he quietly took a seat near the door, where three or four other men were already located, and gave his attention to the matter then under discussion.

They seemed to have gotten down to that portion of the program relating to refreshments, but he found this subject so interesting that he forgot all about the "sporting" part and with watering mouth was soon noting down the proceedings with more than faithful accuracy.

It was necessary to amend his report somewhat and leave out the remarks about how Mrs. \_\_\_\_\_ came gracefully up to the terrace; how Mrs. \_\_\_\_\_ won the toss for post; how many seats there were to be in the grand stand--which they called "the lanai"; how chicken pies and roast turkey ran neck and neck and were both voted in; and how Miss \_\_\_\_\_ with bright bows in her blonde hair, waving mane and gracefully arched neck, "took the cake" in giving pointers on coffee. The notes are amended because, though with the best of intention, they are hardly in proper form in connection with what proved to be the actual purpose of the meeting. It was a gathering of a committee on refreshments alone and the preliminaries of the bill of fare and attendant remarks or suggestions, as gleaned from the sporting editor's notes, are about as follows:

Fish salad to be prepared by a fair lady of the upper Nuuanu and the mayonnaise dressing for that and the other salads was to be the special care of two experts, representing Nuuanu and Kulokahua.

A trio of comely matrons were to be responsible for a goodly supply of chicken salad and it will be a dainty dish, if report speaks true. There was mention of a potato salad with its special dressing, of such a quality that all the guests would clamor for more.

Chicken pies were next in order of debate. Home made, every one, and the fair housekeepers who make them are to strive as to whose effort shall be the best. Although they do not propose to crowd over the result, they all feel sure that the men who eat them will do so.

Then came roast turkey--these birds are all to be donations from the different islands--Hawaiian born and bred and are already being fattened for the occasion. They are not to be refrigerated enough to play "freeze out" (That is the sporting editor's note, but it is decided to leave it in) and they will all be home-baked and dressed and then so deftly carved as to renew delightful dreams of Thanksgiving Day.

Then came, baked, boiled and spiced, will be a delicious accompaniment to the tender turkey with its garnish of ment of guava jelly or cranberry sauce.

From those of the ladies who will not be wholly engaged over the cooking of chickens, turkey and ham, there has been selected a committee who are famed individually for the manipulation of the delightful breakfast roll and home-made loaf of bread and they are to insure that they will not only be very tempting, but that they will be "well bread" enough to "roll" around the tongue in melting mood to the general accompaniment of good sweet butter.

And as to the roast sucking pig, the ladies who will superintend the cooking of these in their home ranges do not want their names mentioned until "after the fact" because they are so well known as adepts in the art that they fear there would not be enough pig to go around.

Then there was talk of sundry dainty and tasty condiments as an accompaniment to the more solid dishes and hot coffee and tea as might be desired.

Then it was told how this event was to happen on the 30th inst., that there would be four long tables in the lanai each table cared for and waited upon by a committee of eight ladies; that each of the tables would have distinctive color decorations and the ladies would wear the color of their tables; that the seating capacity would be for about two hundred, that none might go away hungry or dissatisfied.

Finally there was a stir as though the meeting was about to dissolve and our representative asked a man next to him, how about the game, the sports, the event or whatever it might be and the man put on a surprised look and said there wasn't any sport.

"Well! what are you here for?" he asked.

"Why," said the man, "I came in just as I suppose you did, to hear the ladies talk about all those splendid things to eat, and how they made them and how good they tasted and to have my mouth water."

"Well, I just sat here myself," said the reporter, "and closed my eyes and listened and it's the best meal I've had since last Christmas."

So the "sporting man" sauntered away in thoughtful mood, convinced that though this was a "festive caucus" and rather out of his line, yet it was most enjoyable and sport or no sport, he would hand in his notes and the "city editor" or the printer's devil, or both together, could crush them to suit themselves.

He says that to him it was a refreshing sensation to see that assemblage of ladies, representing about every church denomination in Honolulu, laying aside all matters of sect and joining hands in hand to help their Catholic sisters in their efforts to complete their new convent school, and from what he had seen and heard he would rather be on hand to report on that lunch, than to write up a first class racing event at Napoanui Park.

## TEMPERANCE PROGRESS

W. C. T. U. HOLDS ITS ANNUAL CONVENTION

Delegates Present from All Parts of the Union --- President Stevens Report --- Sources of Anarchy.

Fort Worth, Texas, Nov. 15. --The twenty-eighth annual convention of the Women's Christian Temperance Union began its sessions in the First Baptist Church today. The roll call disclosed the presence of delegates from all States and Territories, and from Cuba, Great Britain, Switzerland, Mexico and Hawaii.

President Lillian M. N. Stevens of Maine, in her annual address, said: "One of the chief sources of anarchy in our country is without doubt the un-American liquor business, for the saloons are the schools of lawlessness. Because we are patriots, if for no other reason, we should work for the overthrow of the saloon and the saloon power and for the extermination of the liquor traffic."

"Among the temperance victories of the past year we gratefully record the action of the Senate in ratifying the treaty for the protection of the African races, and we are reliably told that for twenty months neither Boers nor English in South Africa have allowed liquor to officers or men. The good effect of England's policy in discouraging the use of liquor in the army is being felt and we have reason to believe that the soldier boys do not feel defrauded. The French Minister of War has sent a message to every commander of an army corps, prohibiting the sale of liquor with any alcoholic basis in barrack canteen, in camp or field, and, moreover, provision is made for lectures before the troops on the effects and dangers of alcoholism. Russia has a government commission which recommends the prohibition of liquor selling in army canteens. Austria and Germany are endeavoring to strengthen the efficiency of their armies by discouraging the use of alcoholism."

"In view of all this, and much more, it is not at all strange that the Congress of the United States decided that the army saloon in this country must be abolished. But evidently there is a concerted plan on the part to prove that the law is productive of evil results, an increase of drunkenness, desertions, riots, etc., and testimony given to this end is being gathered and given to the public. Meanwhile the temperance societies, ministers' associations and others are likewise securing testimony of an entirely opposite character. We must make our strongest protest in strongest form against State-regulated vice in the possessions of the United States."

"There is a rapidly increasing sentiment against the use of the cigarette. Forty-two States and the District of Columbia now have laws forbidding the sale of cigarettes or tobacco to minors."

## DAMAGES ARE WANTED

THREE THOUSAND FOR MALICIOUS PROSECUTION

Return Match in Neighboring Feud Instituted by Mrs. Miles Against Mrs. Levy on Police Court Case.

Jennie K. Miles has entered an action for three thousand dollars damages against Annie Levy, on the ground of malicious prosecution. The plaintiff has also sued out an injunction against Levy, or in any manner molesting, or in any manner interfering with or disposing of her property while the action for damages is pending. She has given a bond, approved by Judge Humphreys, in one thousand dollars with Frank R. Harvey as surety. Charles Creighton is attorney for the plaintiff. The proceedings arise out of a prosecution of Mrs. Miles by Mrs. Levy, which was dismissed by District Magistrate Wilcox as frivolous too early, on the charge of abusive language.

Another Judge Reversed. The Supreme Court has rendered a decision on exceptions of plaintiff from the First Circuit Court in the case of Sung Lo Pau and Pong Chong, doing business as Yee Sing Tai Co., vs. Marion M. Luning. It finds material and prejudicial error in certain rulings of Judge Gear, sustains the exceptions and orders a new trial. The syllabus of the opinion, the author of which is Justice Perry, is as follows: "Where a declaration describes the plaintiffs as the 'Yee Sing Tai Company' and the proofs show the name of the firm to be 'Yee Sing Tai,' it is error for the trial court to disallow an amendment asked for so as to make the declaration conform to the proofs."

J. A. Magoon and T. I. Dillon for plaintiffs; F. W. Hankey for defendants. This was Dillon's first case in this Territory.

## WAILUKU LOSES ITS FAMOUS SUIT

The Injunction Decree by Judge Humphreys Reversed.

SUPREME COURT DECIDES EVIDENCE INSUFFICIENT

Debris from Tunneling Operations of Hawaiian Commercial Sugar Co. Not Likely to Choke Stream.

The Supreme Court has decided the injunction suit of Wailuku Sugar Company vs. Hawaiian Commercial & Sugar Company against the complainant. Judge Humphreys' decree is reversed and the bill is dismissed.

Justice Perry is author of the opinion of the court. Chief Justice Freat and Justice Galbraith having set with him on the appeal. The only law declared by the court is thus stated: "Bill for an injunction against depositing earth, stone and other material in a stream so as to obstruct the flow of water therein, dismissed because the averments on which the prayer for relief was based were not clearly established by the evidence."

The undisputed facts are that the Hawaiian Commercial & Sugar Co. owns the bed of Wailuku stream at the places in question, but that the Wailuku Sugar Co. has the right to take water from the stream. From the fact shown that the washing away of a wall by a freshet, carrying the debris into the stream, did not obstruct the flow of water the Supreme Court finds that there is no danger of obstruction from the material deposited by the respondent on the margin of the stream in connection with certain tunneling operations. "In order to justify an injunction," the opinion says, "the danger apprehended and sought to be guarded against must be real and rest upon a substantial basis." It is also found that the evidence does not establish the contention "that the maintenance of the debris in its present location will cause the direction of the current of the stream to change to some extent and the waters thereof to encroach on the complainant's land on the other side of the stream."

Kinney, Ballou & McClanahan for plaintiffs; A. S. Hartwell for respondent.

## CAPTAIN EVANS GOOD FORTUNE

Receives Word Estate In Wales is of Big Value.

WILL START FOR LONDON IN VERY SHORT TIME

His Share Will be About Eighty Thousand Dollars--Goes to Settle Up Matters and Get Coin.

Fortune has smiled once again on Captain Harry Evans, who for the past fifteen years has been a resident of this city. By the steamer from the Coast yesterday he received word that the matter of a very large estate in Wales in which he, with his brothers, had been interested had been finally settled, and asking that he come on to the country to take part in the partition and sale of the land.

Several years ago he was advised of the death of a relative in Wales who left an estate to be divided among eight brothers. It consisted mostly of land in Wales. In the meantime the land which, on account of its inaccessibility, has been looked upon as of little value, was allowed to lay idle. A couple of years ago, however, one of the rich railroad corporations wanted a charter to run a line through the land, and went to Parliament for permission to build and right of way. This has now been granted and the railroad will run right through the many thousand acres of the estate.

A letter from Solicitors & Price, Evans' solicitors in London, states that the railroad company has agreed to acquire the greater part of the land for a terminus of their line, and have offered a great sum for it. The letter further asks that Evans come on to London to be present at the negotiations for the sale of the land. He stated this morning that within a month he would be ready to leave for the old country. Now that he knows that good fortune is awaiting him, he is more than anxious to go, as it has been fifteen years since he had a trip from the islands. His many friends on the front showered congratulations on him this morning when they heard the good news. Evans anticipates that the value of his share in the estate will be about eighty thousand dollars.

## Marquis of Queensberry Bankrupt

London, Nov. 15. --At the examination today of the Marquis of Queensberry, in bankruptcy proceedings, it transpired that when he succeeded to the estate a year ago he owed £150,000. This had been paid off, and his debts now amounted to £18,000, attributed partly to his recent Siberian travels.

## College Hills

During the dull times of the past eight months 110 LOTS have been sold at COLLEGE HILLS. The price paid for these 110 lots was \$143,375.00. Some of these lots have been resold at an advance of from 25 to 60 per cent. No buyers at College Hills are overing their lots at the original price, because Rapid Transit has made them intrinsically worth at least a 25 per cent advance.

SALES AGENTS. Geo. B. McClellan & Co. AND Castle & Lansdale.

## TREASONED HIS CHILD.

Cincinnati, O., Nov. 16. --Mr. Leonard S. Smith, president of a manufacturing company, received a letter full of threats of atrocities to be committed on his 6-year-old son unless Mr. Smith would buy immunity with \$5000 cash. The letter directed that the money be placed in an envelope and left at a designated point at an appointed time. Mr. Smith took counsel and left an envelope as directed but with blank paper instead of money within, and placed a man on watch. Two men appeared, but did not take the envelope, apparently being satisfied that a trap had been set for them. Mr. Smith and his wife are greatly agitated and their fear has been communicated to the neighborhood in Arcadia, this city, who keep a close watch over their children.

In the Kamalo Sugar Company case Frank Huestee, J. I. Egan and Frank Foster, defendants, have filed a motion for a commission to issue to Charles E. Naylor of San Francisco to take the testimony of Martin Smith in that city. Robertson & Wilder and Fred W. Hankey for Huestee and Egan, and Kinney, Ballou & McClanahan for Foster sign the motion.

## REPRESENTATIVES OF PLANTERS CALL ON THE PRESIDENT

Washington, Nov. 14. --W. O. Smith, J. B. Atherton, F. M. Swamy and R. P. Rithet, citizens of Hawaii, called on the President today to discuss with him the condition of industrial affairs in the Hawaiian Islands. They told the President that Hawaii generally was opposed to reciprocity arrangements between the United States and Cuba, which would admit sugar from that island at a low customs rate. The interests of Hawaiians in this respect, they declared, are identical with those of the best sugar growers of the West and the cane sugar producers of the South, and they expect to join with them if the matter should come to an issue during the approaching session of Congress.

The delegation subsequently called on Secretary Gage and discussed with him the labor situation in the Hawaiian Islands. The sugar plantations, they told the Secretary, were becoming less productive each year because of the planters' inability to secure desirable labor. The solution of the question, the delegation viewed it, was the free admission to the islands of Chinese, at least for a time, as they were the best laborers among all those who had been tried on the sugar plantations.
